وادي الصفوة الزراعية
WADI ALSAFOH

FERTILIZERS

ALSAFOH HUMIC ACID

COMPOSITION

Component	Content (w/w)
Humic acid	30%
Organic matter	60%

DESCRIPTION AND BENEFITS

ALSAFOH HUMIC ACID

Country of origin: China

• Natural leonardite extract rich in organic matter (60%) and humic acid (30%).
• Improves soil structure and its physical and chemical properties, and supports beneficial microorganisms.
• Increases cation exchange capacity and nutrient retention and availability. Improves aeration and reduces nutrient leaching.
• Stimulates root growth and efficient water and nutrient uptake. Regular use improves long-term soil fertility and chemical fertilizer efficiency.

APPLICATION RATES

Crop	Application rate
All crops	Broadcast on soil: 25-50 kg/ha

COMPATIBILITY

Apply by broadcasting. May be mixed with other granular fertilizers immediately before application.
