FERTILIZERS

ALSAFOH MKP

Composition:

Component	Content (w/w)
Phosphorus (P_2O_5)	52%
Potassium (K_2O)	34%

Description and benefits:

A high-purity, rapidly soluble crystalline fertilizer supplying phosphorus and potassium in a balanced form. Suitable for all stages of plant growth:
Before planting: provides phosphorus and potassium early and stimulates germination.
Vegetative growth: promotes root growth and nutrient uptake.
Flowering: improves flower formation and fruit set.
Fruiting: improves fruit quality, size, colour and flavour.
MKP improves photosynthesis and micronutrient uptake, supporting plant productivity and crop quality.
