WADI ALSAFOH

INSECTICIDES

DIMER

Active ingredient:

Dinotefuran 50%

Product properties:

A broad-spectrum systemic insecticide effective against piercing and sucking pests such as aphids, whiteflies, thrips and leafhoppers. It acts by contact and ingestion, with absorption and translocation in plant tissues, providing rapid pest control and protection of new growth. It offers long-lasting activity, reduces infestation levels and pest recurrence, and adheres well to leaves.

Application rates and method

Crop	Target pests	Application rate	PHI
Greenhouse vegetables: tomato, pepper, eggplant, cucumber, zucchini	Whiteflies; aphids; thrips; leafhoppers; leafminers	22.5 g/100 L water	7 days
