PUBLIC HEALTH PESTICIDES

Fix

BENEFITS

- Highly effective against houseflies.
- Long residual activity reduces repeat treatments.
- Acts by contact and ingestion.
- Effective against strains resistant to some conventional insecticides.
- Suitable for public health pest management programs.

ACTIVE INGREDIENT

Fipronil 5% SC

Chemical group: Phenylpyrazoles

DESCRIPTION

Public health insecticide in suspension concentrate form for houseflies inside buildings. Acts on the insect nervous system and provides effective control with long-lasting residual activity.

APPLICATION RATES

Target pest	Dilution rate	Application rate
Houseflies	13.5 mL product / 400 mL water	400 mL spray solution/10 m^2

APPLICATION METHOD

Apply localized sprays using a manual or mechanical sprayer. Avoid spraying surfaces that contact food.
