WADI ALSAFOH

PUBLIC HEALTH PESTICIDES

Hack 2

BENEFITS

• Strong efficacy against cockroaches and houseflies.
• Ready-to-use bait requires no mixing.
• Extended activity helps reduce insect populations.
• Relatively safe when used in public health settings.

ACTIVE INGREDIENT

Acetamiprid 2.5% RB

Chemical group: Neonicotinoids

DESCRIPTION

Ready-to-use granular bait for cockroaches and houseflies, providing easy application and high efficacy against target insects.

APPLICATION RATES

Target pest	Application rate
Houseflies	0.2 g/m²
Cockroaches	10-30 g/m², according to infestation severity

APPLICATION METHOD

Place bait in small, scattered spots at infestation sites, including kitchens, bathrooms and insect gathering areas.
