PUBLIC HEALTH PESTICIDES

JOD

BENEFITS

- Strong efficacy against termites.
- Acts by contact and ingestion.
- Residual activity in soil for up to 24 weeks.
- Suitable for public health programs and building protection.

ACTIVE INGREDIENT

Fipronil 2.5% SC

Chemical group: Phenylpyrazoles

DESCRIPTION

Public health suspension concentrate for termites. Acts by contact and ingestion and provides high efficacy and a long protection period.

APPLICATION RATES

Target pest	Dilution rate	Application rate
Termites	100 mL product / 4-10 L water	200 mL spray solution/m² for coating, or soak for 24 hours in spray solution

APPLICATION METHOD

Mix with water and spray directly on soil or into trenches or holes around buildings and termite-infested areas.
