وادي الصفوة الزراعية
WADI ALSAFOH

FERTILIZERS

K-FAST

COMPOSITION

Component	Content (w/v)
Potassium (K_2O)	34.8%
Sulfur (S)	24.3%
Density	1.45

DESCRIPTION AND BENEFITS

• Highly concentrated liquid potassium fertilizer based on potassium thiosulfate, designed for fruit enlargement and coloring stages.
• Increases total soluble solids (TSS) and improves fruit size, flavor and color.
• Supports fruit enlargement and uniform ripening and reduces harvest losses.
• Contains humic acids that improve nutrient uptake efficiency and microbial activity in soil.

ACTIVATED POTASSIUM FOR RIPENING

Country of origin: Italy

APPLICATION RATES

Crop / method	Application rate
All crops	4-5 L/ha with irrigation water
Foliar spray	1-1.5 L/1,000 L water/ha
Greenhouses	1-1.5 L/1,000 m^2

COMPATIBILITY

Do not mix with calcium. Conduct a mixing test before use.
