وادي الصفوة الزراعية
WADI ALSAFOH

PUBLIC HEALTH PESTICIDES

KASIO

BENEFITS

- High efficacy at very low doses.
- Non-repellent activity allows transfer between colony members.
- Suitable for direct dusting in tunnels and active areas.
- Eliminates the colony through horizontal transfer between individuals.

ACTIVE INGREDIENT

Fipronil 0.5% DP

Chemical group: Phenylpyrazoles

DESCRIPTION

Dusting powder for termite control. Blocks GABA-dependent chloride channels in the insect nervous system.

APPLICATION RATES

Target pest	Application rate
Termites	15-20 g per termite nest

APPLICATION METHOD

Apply the product directly as a dust into termite tunnels and active areas.
