وادي الصفوة الزراعية
WADI ALSAFOH

INSECTICIDES

LARVAX

Active ingredient:

Pyriproxyfen 10%

Product properties:

An insect growth regulator effective against piercing and sucking pests such as whiteflies, aphids and scale insects. Disrupts immature-stage development and completion of the insect life cycle, reducing pest populations and spread. Its long-lasting action helps prevent new generations, with good leaf retention and high efficiency in integrated pest management programs (IPM).

Application rates and method

Crop	Target pests	Application rate	PHI
Tomato, eggplant, pepper, cucumber	Whiteflies; aphids	50-75 mL/100 L water	3 days
Fruit trees and citrus	Scale insects	25-75 mL/100 L water	30 days
Ornamental plants	Whiteflies	75 mL/100 L water	-
