PUBLIC HEALTH PESTICIDES

LOOK UP

BENEFITS

- Highly effective against houseflies, mosquitoes and cockroaches.
- Fast action and good residual activity.
- Odorless SC formulation for comfortable use.
- Suitable for homes, restaurants and storage facilities.

ACTIVE INGREDIENT

Alpha-cypermethrin 10% SC

Chemical group: Pyrethroids

DESCRIPTION

Liquid pyrethroid suspension concentrate for public health pests including houseflies, mosquitoes and cockroaches. Provides rapid action and effective residual activity on treated surfaces.

APPLICATION RATES

Target pest	Dilution rate	Application rate
Houseflies, cockroaches and mosquitoes	25 mL product / 3.5-4 L water	400-500 mL spray solution/10 m²

APPLICATION METHOD

Apply using a medium-pressure manual or electric sprayer with a cone or fan nozzle.
