PUBLIC HEALTH PESTICIDES

Search

BENEFITS

- Strong efficacy against houseflies.
- Wettable powder is easy to prepare and use.
- Rapid action with suitable residual activity on treated surfaces.
- Suitable for homes, restaurants and warehouses.

ACTIVE INGREDIENT

Lambda-cyhalothrin 10% WP

Chemical group: Pyrethroids

DESCRIPTION

Wettable powder public health insecticide for housefly control. Provides rapid action and good residual activity when used correctly.

APPLICATION RATES

Target pest	Dilution rate	Application rate
Houseflies	2 g product / 400-500 mL water	400-500 mL spray solution/10 m^2

APPLICATION METHOD

Spray treated surfaces with the solution using a medium-pressure manual or electric sprayer.
