PUBLIC HEALTH PESTICIDES

SHILDER

BENEFITS

- High efficacy and rapid action against public health pests.
- Extended activity on treated surfaces.
- Suitable for indoor and outdoor spraying.
- For homes, restaurants and warehouses.

ACTIVE INGREDIENT

Alpha-cypermethrin 10% SC

Chemical group: Pyrethroids

DESCRIPTION

Liquid pyrethroid suspension concentrate for flies, mosquitoes and cockroaches. Disrupts nerve impulse transmission, causing paralysis and rapid death, with high efficacy and good surface persistence.

APPLICATION RATES

Target pest	Dilution rate	Application rate
Flies, mosquitoes and cockroaches	3 mL product / 400-600 mL water	400-600 mL spray solution/10 m^2

APPLICATION METHOD

Spray target surfaces using a suitable sprayer.
